

SwitchVox Add-ons

Switchvox SMB has an easy to use, point and click web interface, and comes with a long list of exciting features. Switchvox can be extended to other applications on your desktop via standard product add-ons that integrate directly with your Switchvox system. These add-ons enable click to call and other telephony functionality inside Microsoft Outlook, Firefox and other applications.

Switchvox Notifier Suite

Switchvox Notifier Suite integrates your Switchvox PBX with your Microsoft Office software programs (Outlook, Word, PowerPoint, and Excel).

- Features:
- Click to call from Outlook Contacts
- Smart Tags in Outlook, Word, Excel, and PowerPoint
- Make calls from your Windows desktop
- Displays the caller ID and your call history with callers
- Open Switchboard from the Call Panel
- One-click option to play a voicemail message or view a fax

- System Requirements
- Switchvox Notifier Suite requires an account on a Switchvox SMB 4.0 PBX, and the following software installed on your computer:
- Microsoft Windows XP or Vista
- Microsoft .NET Framework 3.5 *
- Microsoft Office 2007 Primary Interop Assemblies *
- Microsoft Visual Studio Tools for the Microsoft Office system (version 3.0 Runtime) (x86)
- * Automatically installed with Switchvox Notifier Suite, if necessary.

Note: If you want to use Switchvox Notifier Suite's Outlook-related features, you must also have the latest version of Microsoft Office.

Fire Dialer Firefox Extension

Works with the Firefox web browser and the Switchvox PBX to allow you to click phone numbers on any web page and have that number ring your extension.

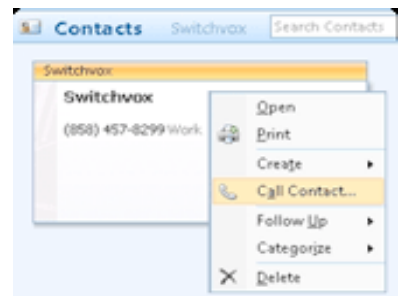

- Features:
- Allows dialing numbers from any web page
- Imports your Rapid Dial list to allow calling from your browser
- Has a highlight feature to make finding phone number easy
- Conveniently keeps track of your dialed numbers

Microsoft Outlook Plugin & Smart Tags

Click to call any contact in your Microsoft Outlook address book, and use Switchvox Smart Tags to click to call phone numbers from Microsoft Outlook, Word, Excel, and PowerPoint documents.

- Features
- Click to call from Outlook Contacts
- Smart Tags in Outlook, Word, Excel, and PowerPoint
- Dial numbers using Windows XP or Vista phone dialer

This add-on requires an account on a Switchvox PBX, and the following software installed on your computer:

- Windows OS Requirements
- Windows XP SP2 (32-bit)
- Windows Vista (32-bit)

- Microsoft Office Requirements
- MS Office 2003 SP3
- MS Office 2007

Note: If you are running Switchvox 4.0 or later, please use the Switchvox Notifier Suite add-on.
